Screen Entry	The average amount of this type of aid awarded to Group 2 students is outside the expected range of between 1,650 and 2,474 when compared with the prior year value. Please check the number of students and the total amount of aid awarded to these students, and correct or explain the discrepant values. (Error #7147)	Explanation	Yes	
Reason:	Fall 2012 numbers included Veteran's Benefits. When removing those from the previous year's calculation, the average award becomes \$878 per student.			
Screen Entry	The average amount of this type of aid awarded to Group 2 students is outside the expected range of between 7,547 and 11,319 when compared with the prior year value. Please check the number of students and the total amount of aid awarded to these students, and correct or explain the discrepant values. (Error #7147)	Explanation	Yes	
Reason:	There is no clear pattern between the borrowers of private loans from Fall 2012 and Fall 2013. Given the generally small sample sizes, it would be difficult to create a broad general theme. However, the smaller number of borrowers this year over previous years is a good thing, and suspect this is due, in part, to improved scholarship and grant packages for students.			

Screen Entry	This value is expected to be within 20% of the prior year amount. Please correct your data or explain. (Error #7239)	Explanation	Yes	
Reason:	As originally reported in the 2012-13 Inst. Characteristics survey; "Through conversations with students, we realized a need to update our allowances for personal and miscellaneous expenses. This need for revision applied only to other expenses. The revised numbers reflect updated information collected from student surveys".

Reason:	<p>In the last few years, we've improved our grant and housing scholarship programs. This can be seen by the increase in students living on campus. Even though the number of FTFT degree-seeking students paying instate tuition rates who received Title IV aid decreased from 2012-13 to 2013-14, we maintained the number of students who lived on campus over the previous year. Those two factors (reduced students in this group overall, and maintained number of students living on campus) would contribute to a significant reduction in students living off campus.</p>			
Screen Entry	<p>The calculated average amount of grant or scholarship aid awarded to Group 4 students from the federal government, state/local government, or the institution for this income level is smaller than expected in comparison with the other income levels. Please check the values reported for the number of these</p>
