Enrollment Projections Report, 2002
Office of Institutional Research and Planning
University of Missouri System

Executive Summary

The *Enrollment Projections Report, 2002* includes University of Missouri enrollment projections for each of the four campuses and the System. Organized according to student level, it provides headcount and credit hour projections for the next five years. Each campus made headcount and credit hour projections and these projections are presented in this report unaltered. The totals for the UM System were calculated by adding totals from each of the four UM campuses. A special thanks to the following representatives who provided the enrollment projections for their campus: Rob. Taylor at UM-Columbia, Jennifer Spielvogel at UM-Kansas City, Carol Heddinghaus at UM-Rolla, and Linda Silman at UM-St. Louis.

The highlights of the report include:

Full-time, first-time freshmen enrollment at the University of Missouri is projected to increase 5% over the next five years. This is a more conservative prediction from last year when enrollment was expected to increase by 10%. Freshmen enrollment is expected to remain relatively unchanged at the Columbia campus. The Kansas City and St. Louis campuses are predicting increases of 10% and 12%, respectively. Rolla anticipates the largest increase, a projected growth of 26%.

System-wide, undergraduate headcount is expected to increase from 37,850 in fall of 2001 to 41,623 in the fall of 2006, an increase of 10%.

Over the next five years, graduate headcount is expected to increase overall by 18%. Graduate enrollment is expected to increase on all campuses. The Columbia campus expects a 4% increase. The Kansas City campus anticipates a 15% increase. The St. Louis campus expects a 31% increase. The biggest increase in graduate enrollment is expected at Rolla with a predicted increase of 54%.

Undergraduate on-campus, on-schedule credit hours across the System should see a 10% increase from approximately 472,839 credit hours in fall of 2001 to nearly 518,755 credit hours in the fall of 2006.

Over the next five years, the Columbia, Kansas City, and Rolla campuses each expect a 1% decrease in undergraduate students that are Missouri residents. The percentage of graduate students that are Missouri residents are expected to remain the same for the Kansas City, Rolla, and St. Louis campuses. The Columbia campus expects a 4% decrease in the percentage of graduate students that are Missouri residents.

On-Campus Enrollment Projections

UM-Columbia

Total on-campus headcount is expected to increase 4% from 23,563 in 2001 to 24,407 in 2006 (Table 1).

This is a more conservative prediction from last year when enrollment was expected to increase by 9%.

Total undergraduate enrollment is expected to increase by
