

## IFC Meeting Minutes

May 24, 2019

1. Using data to support faculty and better understand each university
  - a. Purpose:
    - i. Internal and externally we want others to see what we are doing
    - ii. Find people doing work like yours both internally and externally
    - iii. The URL can be used to show people what you do
    - iv. Automatically population so faculty don't have to update all the time and would only do that for those that are not publically curated
  - b. Department can see a profile view including
    - i. Faculty data
    - ii. Grant data if desired (MU included this, but is up to each university)
      1. This currently includes internal grant data but not internal awards
    - iii. Provides a snap shot of strengths and weaknesses
    - iv. Provides comparisons both full national mean/median and AAU public
  - c. Report set up
    - i. Could vary by department but also by campus
    - ii. Constantly re-evaluating the definition to ensure it is included in these summaries
    - iii. Can see strengths and weaknesses across the university as well
    - iv. Research and teaching overview
    - v. Research interests – curate from topics but can add as desired
  - d. myVita
    - i. The goal is to integrate the data with myVita so that you can enter information once

2. Provost developed a plan of how they are going to do this differently
3. Semi-annual report
  - a. How many implemented
  - b. Process for approaching faculty with issues
  - c. Need Chair and Dean on board for it to happen

2. Consider if we should do a 360 again after coaching has occurred
  - v. Will there be objective indicators?
  - vi. The
